October 29, 2018

Please note that the 5th grade newsletter will be sent out on Mondays from now on.

The end of the Quarter is next week! There will be no school next Thursday or Friday, November 1st & 2nd.

Social Studies

October 29, 2018

The spelling test is **Monday**. The words are ceremonies, empire, indigenous, Iroquois, & lodge. Please have your children study the spelling words as well as their vocabulary words (in their notebooks) for at least 5 minutes a night. The chapter test is on Tuesday and Wednesday. A crossword puzzle will be sent home today for homework. It is due

on Tuesday.

This has been an amazing first quarter, and we cannot wait to see what the next one brings!

Here's to a great week!

-Ms.Doyle and Ms.Murphy

Language Arts

10/29/18

I can't believe the first quarter is coming to a close already! This week we are finishing final tales projects. The creativity is truly amazing, it is so fun to see the different ways the children are expressing their learning.

Next quarter we are starting the book Locomotion. It is all written in verse so it is a wonderful time to tie in poetry. Our culminating activity will be individual poetry books.

As always, free free to contact me with any questions.

Your children continue to amaze me every day-
Mrs.A

Science

10/29/18

It may be a short student week, but it is an active week just the same. We will be concluding our plant tolerance experiments, continuing our mealworm observations, and introducing our aquarium environments. Yes, we have guppies and gold fish. We will be seeing what is necessary to make a healthy ecosystem in which the fish can thrive.

On a side note, to celebrate the completion of the first quarter of the 2018/19 academic year, students may participate in a dress up day on Wednesday. They may dress comfy in pajamas or they may dress fancy. This celebration is not meant to include Halloween costumes. Me, I am planning on a comfy day.

Enjoy,
Ms. Greger

This week we will conclude how to find the area of parallelograms, triangles, and trapezoids. Students needed a few more days on these topics to better understand them so the quiz got moved to this Wednesday. The quiz will be on quarter 2 grade.

Students have done several hands on activities in this unit including using geoboards/rubber bands to find the area of shapes and cutting out, rearranging and glueing shapes to discover why the equations work.

Starting quarter 2, we will have new seats and move into finding the volume and surface area of rectangular prisms.
