September 28, 2018

As September fades out and October approaches, please remember to sign up for conferences! We still have time slots available. If you have any questions about signing up, please E-mail Ms. Adams at: karen.adams@mpls.k12.mn.us We look forward to meeting with all of you!

You will be by June!

Social Studies

September 28, 2018

We had another great week!

Spelling Test on Thursday, October 4.

The words are: October, Americans, glacier, ancient, agriculture

This week we continued Unit 1 on the Early Americas, and we are using the class textbooks. Remember to have your students review class notes nightly for 5-10 minutes. The Chapter 1 test will be next Friday and Monday. That is October 5 & 8. Their homework (cross-word puzzle) will be due the day of the test.

Please review the **planner** with your students weekly. Feel free to discuss topics we are studying in social studies, and what they are learning. By you signing the planner weekly, it shows us the you are discussing social events or upcoming projects with your child. Second hour has achieved 100%!

****If your child is signed up for **Greek Explore** during 5th hour, please have them bring a small 3-ring binder. 1 1/2-2" is perfect! This replaces any notebook or folder that they may use, and provides them with a portfolio at the end of the semester. We still have a couple of students who do not have one yet.

Here's to a great week!
-Ms.Doyle and Ms.Murphy

Language Arts

9/28/18

It's the end of September already. Can you believe it? Our 9/11 presentations are going so well. All students have been actively engaged in creating, presenting, and reflecting. We also had an end of the "unit" assessment. These should be graded and returned to your child by next week.

Speaking of next week, we will begin going to the media center to check out books. Every other Thursday at the end of your child's ELA class they will have the opportunity to go.

Conferences are coming up. If you haven't signed up yet, please do so. I am also asking that

students attend conferences whenever possible. I think it is important to hear their voice!

Have a wonderful weekend-
Mrs.A

Science

9/28/18

During this last week of September we continued exploring the brain and learning. Student spent the better part of the week engaged in a group learning activity creating bead models of a neuron. Table groups were required to read and interpret directions together, as well as problem solve and make sure that each member of the team was being successful.

Monday each team will need to use the models they built to represent a neural pathway and explain how neural pathways function.

It should be a lovely weekend with the first frost of the season Saturday morning.

Enjoy,
Ms, Greger

Mathematics

9/28/18

Today students took a quiz Learning Targets 2.1 and 2.2. (Equivalent fractions, mixed numbers, improper fractions, and ordering fractions.) Students will get them back on Monday.

Next week we will continue working with fractions. Students will explore number lines and story problems to go deeper in their learning.

Students can re take a quiz Thursdays during Advisory. In order to re take a quiz students must complete and action plan and turn it in by Wednesday. Action plans can be found in the classroom or on my website under the "books/ resources" tab.

Have a wonderful weekend!
